Notes to the Financial Statements

1 REPORTING ENTITY

These financial statements have been prepared in accordance with the Sale and Supply of Alcohol Act 2012. The consolidated financial statements of Masterton Community Trust as at and for the year ended 31 March 2018 comprise of Masterton Community Trust, Masterton Licensing (Charitable) Trust, Trust House Limited (94.3% owned), Trust House Foundation (a controlled entity) and Tararua Foundation (a controlled entity). Tararua Foundation was wound up on 27 March 2017. Masterton Licensing (Charitable) Trust was wound up on 6 April 2016.

The Masterton Community Trust is a community trust established in accordance with the Sale of Supply of Alcohol Act 2012 and through its subsidiary Trust House Limited is primarily involved in the hospitality industry running a number of bars, restaurants, a bottle store, two hotels and a large rental housing portfolio.

The Masterton Licensing Trust was changed to Masterton Community Trust by an order in council, under the provisions of the Sale and Supply of Alcohol Act, on 9th May 2016.

2 BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Trust comply with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS).

The financial statements were approved by the Board of Trustees on 13 August 2018.

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP). For the purposes of complying with NZ GAAP the entity is a for-profit entity.

Under the Accounting Standards Framework, the Trust has determined that it is a 'tier one' entity, as the Trust has expenses less than \$30 million, however the Trust elects to report under 'tier one' accounting standard.

Masterton Community Trust is a Trust incorporated and domiciled in New Zealand, registered under the Sale and Supply of Alcohol Act 2012. The Trusts registered office is 4 Queen Street, Masterton 5840, New Zealand.

Accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(b) Measurement base

The financial statements have been prepared on the historical cost basis except for the following:

- investment property is measured at fair value
- land and buildings are measured at fair value

The methods used to measure fair values are discussed further in note 4.

Functional and presentation currency

These financial statements are presented in New Zealand dollars, which is the Group's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest dollar.

(c) Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the following notes:

- Note 12 — valuation of investment property
- Note 13 — useful lives of property, plant and equipment
- Note 13 — valuation of property, plant and equipment
- Note 14 — goodwill impairment

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by Group entities

Basis of consolidation

The consolidated financial statements comprise the financial statements of Masterton Community Trust and its subsidiaries as at 31 March each year ('the Group')

The Group financial statements consolidate the financial statement of subsidiaries.

The consolidated financial statements are prepared by adding together like items of assets, liabilities, equity, revenue and expenses of entities in the Group on a line by line basis.

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Transactions eliminated on consolidation

Intra-group balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Financial instruments

The Group has the following financial instruments:

Financial assets: Loans and receivables: Cash and cash equivalents, Trade and other receivables.

Financial liabilities: Financial liabilities at amortised cost: Trade and other payables and Borrowings.

Financial instruments are measured as described below.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and term deposits with a duration of less than three months. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the Statement of Cash Flows.

Trade and other receivables

Trade and other receivables are stated at their amortised cost less impairment losses.

Trade and other payables

Trade and other payables are stated at amortised cost.

Property, plant and equipment

Recognition and measurement

Land and buildings are revalued with sufficient regularity such that the carrying value is not materially different to fair value, but at least every three years. The fair value is determined by an independent registered valuer by reference to their highest and best use. Additions between revaluations are recorded at cost.

The valuation results of land and buildings are credited or debited to an asset revaluation reserve for that individual asset. Where a revaluation results in a debit balance in the revaluation reserve, the debit balance will be expensed in the Income Statement. Any subsequent increase that reverses a decrease recognised in the Income Statement will be recognised first in the Income Statement up to the amount previously expensed.

Furniture, plant and equipment, hydro assets, motor vehicles and gaming machines are initially recorded at cost, and depreciated.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Depreciation

Depreciation is calculated on a diminishing value basis on all plant, property and equipment except gaming machines which are calculated on a straight line basis (other than freehold land and items under construction, which are not depreciated), at a rate which will write off the cost (or valuation) of the assets to their estimated residual value over their useful lives.

The depreciation rates for property, plant and equipment are as follows:

Land & Buildings - structure	3%-33.3%
Land & Buildings - services and fit out	6.5%
Furniture & Plant - general	6.67-25%
Furniture & Plant - gaming machines and counters	25%-100%
Motor Vehicles	20%
Hydro Assets - Electrical reticulation	10%
Hydro Assets - Computerised load control equipment	25%

When the components of an item of property, plant and equipment have different useful lives or provide benefits to the entity in different patterns, thus requiring different depreciation rates and methods, the cost of the item is allocated to its component and each component is accounted for separately.

Intangible assets

Intangible assets comprise of software acquired by the Group and goodwill on acquired businesses. Intangible assets acquired by the Group which have finite lives, are measured at cost less accumulated amortisation and accumulated impairment losses. Software is amortised at a rate of 15-25% per year on a diminishing value basis. Gaming machine software upgrades are amortised at 25% per year on a straight line basis.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquired business at the acquisition date.

Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Where goodwill is allocated to a leased property the goodwill is amortised over the remaining life of the lease. An impairment loss recognised for goodwill is not reversed in any subsequent period.

Investment property

Property is classified as investment property when the primary income stream from the asset is rental income.

Investment property is initially recorded at cost. After initial recognition it is measured at fair value at each balance date.

With the introduction of IFRS 13 Fair value measurement, the Groups policy is to value at fair value considering highest and best use on an individual property basis.

Any increase or decrease in fair value is recognised in the Income Statement. Investment property is not depreciated.

Impairment

The carrying amounts of the Group's assets are reviewed at each balance sheet date to determine whether there is any objective evidence of impairment.

An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses directly reduce the carrying amount of assets and are recognised in the income statement.

Impairment of receivables

All individual receivables which are considered to be significant are evaluated on a case by case basis. For trade receivables which are not significant on an individual basis, collective impairment is assessed on a portfolio basis based on numbers of days overdue, and taking into account the historical loss experience in portfolios with a similar amount of days overdue.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases

Finance leases

Leases which effectively transfer substantially all the risks and benefits incidental to the ownership of the leased item to the Group are classified as finance leases. These are capitalised at the lower of the fair value of the asset or the present value of the minimum lease payments. The leased assets and the corresponding lease liabilities are recognised in the Statement of Financial Position. The leased assets are depreciated over its useful life. If there is no certainty as to whether the Group will obtain ownership at the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

Operating leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items are classified as operating leases. Operating lease payments are recognised as an expense in the Income Statement on a straight line basis over the lease term.

Inventories

Inventories are valued at the lower of cost, on a weighted average basis, and net realisable value.

Employee entitlements

Provision is made in respect of the Group's liability for annual leave, long service leave, and retirement gratuities.

Annual leave and other entitlements that are expected to be settled within 12 months of the reporting date are measured at nominal values on an actual entitlement basis at a current rate of pay.

Entitlements that are payable beyond 12 months, such as long service leave and retirement gratuities, have been calculated on an actuarial basis on the present value of the expected future entitlements.

A provision for sick leave is recognised where employees have over the past two years taken more sick leave than their yearly allowance and still have accrued sick leave entitlements at year end. The provision is calculated as the number of excess sick leave days over the employees entitlement expected to be taken in the next 12 months times the employees' daily rate.

A provision is recognised for the amount expected to be paid under short-term cash bonus plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Revenue

(1) Goods sold / sales

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

(2) Services

Trust House Limited acts as a management company for other Group entities. Revenue for management fees is recognised in accordance with the fees agreed in those contracts.

(3) Rental income

Rental income from investment property is recognised in the Income Statement as it becomes due.

(4) Gaming machine income

Revenue from gaming operations is measured at the fair value of the consideration received or receivable. Revenue is recognised when recovery of the consideration is probable.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments

Investments in Foodstuffs deferred rebates are initially recognised at fair value by present valuing the future cash flows to be received under the rebate. They are subsequently measured at amortised cost.

Investment in Foodstuffs shares and rebates are accounted for at cost as the fair value of the rebates and shares cannot be reliably measured.

Borrowings

Long term debt is recognized initially at fair value, net of transaction costs incurred.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred. Interest on qualifying assets is capitalised to the asset.

Tax

The Masterton Community Trust is subject to Income tax. Trust House Limited is exempt from Income Tax as it is a registered charity. The Trust House Foundation is exempt from Income Tax as a Class IV gaming operator.

Income tax expense comprises both current tax and deferred tax, and is calculated using tax rates that have become enacted or substantively enacted by balance date.

Current tax is the amount of income tax payable based on the taxable profit for the current year, plus any adjustments to income tax payable in respect of prior years.

Deferred tax is the amount of income tax payable or recoverable in future periods in respect of temporary differences and unused tax losses. Temporary differences are differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

The measurement of deferred tax reflects the tax consequences that would flow from the manner in which the entity expects to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences or tax losses can be utilised.

Deferred tax is not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of an asset and liability in a transaction that is not a business combination, and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is recognised on taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Trust can control the reversal of the temporary differences and it is probable that the temporary difference will not reverse in the foreseeable future.

Current tax and deferred tax is charged or credited to the statement of financial performance, except when it relates to items charged or credited directly to equity, in which case the tax is dealt with in equity.

Goods and Services Tax

These accounts are prepared on a GST exclusive basis with the exception of trade and other receivables and trade and other payables, which are stated on a GST inclusive basis. Where GST is irrecoverable as an input tax, then it is recognised as part of the related asset or expense.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

The amount of GST owing to or from the Inland Revenue Department at balance date, being the difference between output GST and input GST, is included in Trade and other receivables or Trade and other payables (as appropriate). The net GST paid or received from the IRD including the GST relating to investing and financial activities, is classified as an operating cash flow in the Cash Flow Statement.

Charitable donations

Charitable donations are recognised when approval is given.

Held for sale assets

Non-current assets are reclassified as current assets held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

Depreciation is not charged against property, plant and equipment classified as held for sale.

New standards, amendments and interpretations

Other than NZ IFRS 9 "Financial Instruments" and NZ IFRS 16 "Leases", there are no new standards, amendments or interpretations that have been issued and effective, or not yet effective, that are expected to have a significant impact on the Group. The Group has yet to assess the full impact of NZ IFRS 9 (effective date: 1 January 2018) and NZ IFRS 16 (effective date: 1 January 2019).

4 DETERMINATION OF FAIR VALUES

A number of the Groups accounting policies and disclosures require the determination of fair values for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) Land and Buildings

The fair value of land and buildings is based on market values. The market value of land and buildings is the estimated amount for which they could be exchanged on the date of valuation, between a willing buyer and a willing seller in an arms length transaction after proper marketing, wherein the parties had each acted knowledgeably, prudently and without compulsion.

(b) Investment Property

An external independent valuer, having appropriate recognised professional qualifications and recent experience in the location and category of assets being valued, values the Groups investment property portfolio every 12 months. The valuations are prepared by considering the individual highest and best use of the properties in the portfolio.

8 CASH AND CASH EQUIVALENTS

	Group 2018	Group 2017
	\$	\$
Bank balances	463,886	1,292,647
Cash floats	<u>223,346</u>	<u>205,448</u>
Cash and cash equivalents	<u>687,232</u>	<u>1,498,095</u>
	Group 2018	Group 2017
	\$	\$
Cash and cash equivalents	687,232	1,498,095
Bank overdrafts used for cash management purposes	<u>(695,849)</u>	<u>-</u>
Cash and cash equivalents used in the statement of cash flows	<u>(8,617)</u>	<u>1,498,095</u>

The carrying value of cash at bank, cash floats and bank overdrafts approximates fair value.

9 TRADE AND OTHER RECEIVABLES

	Group 2018	Group 2017
	\$	\$
Trade receivables	272,398	447,663
Less provision for impairment	<u>(25,927)</u>	<u>(16,710)</u>
	246,471	430,953
Sundry receivables	<u>103,554</u>	<u>875,080</u>
	<u>350,025</u>	<u>1,306,033</u>
	Group 2018	Group 2017
	\$	\$
Aging of trade receivables		
The status of trade receivables at the reporting date is as follows:		
Not past due	186,327	256,495
1-30 days	39,143	66,000
31-60 days	12,107	10,775
60 days+	<u>34,818</u>	<u>114,393</u>
	<u>272,395</u>	<u>447,663</u>

As of 31 March 2018, trade receivables of \$25,927 (2017: \$16,710) were past due and considered impaired and trade receivables of \$60,141 (2017: \$174,458) were past due but not considered impaired.

9 TRADE AND OTHER RECEIVABLES (continued)

Movements in the group provision for impairment of receivables are as follows:

	Group 2018	Group 2017
	\$	\$
As at 1 April	16,710	84,693
Additional provisions made during the year	22,580	39,782
Receivables written off during the year	<u>(13,363)</u>	<u>(107,765)</u>
Balance at the end of the year	<u>25,927</u>	<u>16,710</u>

Amounts charged to the provision are generally written off when there is no expectation of recovering additional cash.

The individually impaired receivables relate mainly to customers that are in difficult economic circumstances.

10 INVENTORIES

	Group 2018	Group 2017
	\$	\$
Raw materials and consumables	63,620	57,987
Goods available for sale	<u>335,249</u>	<u>312,258</u>
	<u>398,869</u>	<u>370,245</u>

Inventory comprises goods available for sale and food ingredients.

No inventories are pledged as security for liabilities (2017 \$nil). However, some inventories are subject to retention of title clauses.

11 OTHER INVESTMENTS

	Group 2018	Group 2017
	\$	\$
Current investments (at amortised cost)		
Foodstuffs Ltd - deferred rebates	<u>53,005</u>	<u>53,005</u>
	<u>53,005</u>	<u>53,005</u>
Non current investments (at amortised cost)		
Vendor loan	650,000	650,000

	<u>68,007,000</u>	<u>60,081,228</u>

Residential investment property comprises 485 (2017: 479) rental houses in the lower North Island. The Group's investment properties are valued annually at fair market value effective 31st March.

The valuation uses level 2 observable inputs in arriving at fair value. These include the ratio of rental income to selling prices of equivalent assets done both on a total portfolio basis and also on a regional basis reflecting different ratios achieved in different areas. Depreciated replacement cost is also used as a supporting method

The valuation was performed by an independent value, J McKeefry BBS (VPM), Dip BS (Fin), MPINZ; Registered Valuer of Telfer Young, Wellington. Telfer Young are an experienced valuer with extensive market knowledge in the types of investment properties owned by the Group.

	Group 2018	Group 2017

13 PROPERTY, PLANT AND EQUIPMENT (continued)

Valuation - land and buildings

At fair value as determined from market based evidence by an independent valuer.

The most recent valuation was performed by J McKeefry BBS (VPM), Dip BS (Fin), MPINZ; Registered Valuer of Telfer-Young Wellington and the valuation is effective as at 31 March 2018.

The valuations were primarily based on the rental capitalisation methodology, depreciated replacement cost is used as a support method.

The total fair value of land and buildings valued by J McKeefry Group and Parent as at 31 March 2018 was \$15,720,000 (2017: \$14,689,000). This figure relates to both parent and group. The valuation uses Level 2 observable inputs in arriving at fair value.

These include rental prices per square metre of equivalent assets and capitalisation rates of rental income on sales of equivalent assets.

Impairment

Net impairment losses for the Group of \$Nil were recognised in 2017/18 (2016/17 \$Nil).

Insurance

The Group and related entities have joined a group insurance collective run by the New Zealand Licensing Trust Association in order to obtain improved coverage and pricing.

The NZLTA collective scheme has insurance cover of \$65 million for fire and \$170 million for material damage and business interruption.

Deductibles for claims are as follows:

Non-natural disaster - \$5000 for each and every claim.

Natural disaster - 5% of site sum insured per site.

Disposals

The Group sold two businesses during the year. The assets sold and consideration received are detailed below.

	Group \$

As at 31 March 2018	693,810	224,143	917,953

(i) Description of the cash generating units and other relevant information

Goodwill acquired through business combinations has been allocated to three cash generating units (CGU's) for impairment testing as follows:

The Ledge

The Ledge is a public bar with 18 gaming machines operating in Porirua.

The fair value of consideration for the purchase was \$200,000.

Goodwill was recognised on the 8th June 2015 acquisition due to the profitability The Ledge provides to the Group.

The goodwill is being amortised over the remaining life of the lease on the premises

Post Office Hotel

The Post Office Hotel is a Hotel with public bar and 14 gaming machines operating in Pahiatua.

The fair value of consideration for the purchase was \$1,760,000.

Goodwill was recognised on the 20th Feb 2017 acquisition due to the profitability The Post Office Hotel provides to the Group.

14 INTANGIBLE ASSETS (continued)

The recoverable amount has been determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management which covers a five year period. The growth rate of cash generation is assumed to be 2.5% per annum for the first 5 years and 2% per annum thereafter.

The discount rate applied to cash flow projections is 6.0%.

The Jackson Street Bar

The Jackson Street Bar is a public bar with 18 gaming machines operating in Masterton.

The fair value of consideration for the purchase was \$1,119,787.

Goodwill was recognised on the 31st March 2017 acquisition due to the profitability The Jackson Street Bar provides to the Group.

The recoverable amount has been determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management which covers a five year period. The growth rate of cash generation is assumed to be 2.5% per annum for the first 5 years and 2% per annum thereafter.

The discount rate applied to cash flow projections is 6.0%.

(ii) Carrying amount of goodwill allocated to each group of cash generating units

	Group 2018 \$	Group 2017 \$
The Ledge	123,810	161,905
Post Office Hotel	395,000	395,000
Jackson Street Bar	<u>175,000</u>	<u>175,000</u>
Total Goodwill	<u>693,810</u>	<u>731,905</u>

(iii) Key assumptions used in value in use calculations for cash generating units

The calculation of value in use for all CGU's is most sensitive to the following assumptions; gross margins, discount rates and growth rates used.

Gross margins are based on the average achieved in the last 12 months.

For the purposes of impairment testing a terminal growth rate has been used for all segments based on long-term industry averages.

(iv) Sensitivity to changes in assumptions

With regard to the assessment of the value in use for all CGU's, the Group believes that no reasonably possible change in any of the above key assumptions would cause the carrying values of the units to materially exceed its recoverable amount.

15 TRADE AND OTHER PAYABLES

19 FINANCIAL INSTRUMENTS

Exposure to credit interest rate and liquidity risk arises in the normal course of the Group's business.

Credit risk

Management has a process in place under which each new customer seeking credit with the Group is individually analysed for its worthiness and assigned a purchase limit before credit is offered.

The Group does not require collateral in respect of trade and other receivables, except in relation to rental properties where bonds are required and lodged with the tenancy tribunal.

The Group's exposure to credit risk is mainly influenced by its customer base, as such it is concentrated to the default risk of its industry. No single customer balance would be considered material.

Investments are allowed only in call or short term deposits with specified counterparties.

Credit quality of financial assets

Cash and cash equivalents are held with the ANZ National Bank which currently has a Standard and Poor's credit rating of AA. Trade and other receivables are all with counterparties without credit ratings with no history of default with the Group in the past.

Liquidity risk

Liquidity risk represents the Group's ability to meet its contractual obligations. The Group evaluates its liquidity requirements on an ongoing basis. In general, the Group generates sufficient cash flows from its operating activities to meet its obligations arising from its financial liabilities and has credit lines in place to cover potential shortfalls.

	Group 2018	Group 2017
	\$	\$
Overdrafts and credit lines in place	2,000,000	2,000,000

Interest rate risk

The Group regularly reviews the balance between its fixed rate and floating rate borrowings. The Group has flexibility within its borrowing facilities to move between fixed and floating rates as required.

Other market price risk

The Group is not exposed to any other substantial market price risk arising from financial instruments.

Quantitative disclosures

Credit risk

The carrying amount of financial assets represents the Group's maximum credit exposure.

19 FINANCIAL INSTRUMENTS (continued)

(a) Liquidity risk

23 RELATED PARTY TRANSACTIONS

(i) Parent and ultimate controlling party

The immediate parent and ultimate controlling party of the Group is the Masterton Community Trust.

(ii) Transactions with key management personnel

Several of the Directors of Trust House Limited and Trustees of Masterton Community Trust own or run businesses in their own right. A number of these entities transacted on an arms length basis. All transactions are entered into in the normal course of business.

During the year Directors and senior management, as part of a normal customer relationship, were involved in minor transactions with Trust House Limited (such as purchase of meals or liquor). Directors and senior management are entitled to a 10% discount on non-discounted goods. These buying privileges are available to all employees.

Lucy Griffiths, a trustee of Masterton Community Trust and a Director of Trust House Limited, is the spouse of a major shareholder in Technology Solutions which provides technology services and hardware to Trust House Limited. Technology Solutions has been the preferred supplier of information technology hardware and services to the Trust House Group for at least 20 years, pre-dating Lucy Griffiths election to Masterton Community Trust and appointment to the Board of Trust House Limited. During the year Trust House Limited paid Technology Solutions \$194,723 (2017: \$196,560). The amount outstanding at year end was \$34,713 (2017: \$34,325). The Group paid \$197,910 (2017: \$204,815) during the year and the amount outstanding at year end was \$34,713 (2017: \$34,808)

Cindy Grant, a senior manager of Trust House Limited, and her spouse jointly own Power Related Services Limited (PRSL) which provides electrical services and storage to the Group. During the year the Group paid PRSL \$7,728 (2017: \$2,444). The amount outstanding at year end was \$Nil (2017: \$Nil).

(iii) Key management and personnel compensation

	2018	2017
	\$	\$
Salaries and other short term benefits	1,089,396	1,021,112
Post employment benefits	20,757	18,265
Termination benefits	-	-
	<u>1,110,153</u>	<u>1,039,377</u>

Key management personnel compensation comprises that of the Directors, Trustees, Chief Executive and other senior managers.

Employee Remuneration

The following table shows the number of employees whose total remuneration (including benefits) exceeds \$100,000 per annum.

	2018	2017
\$110,000 - \$120,000	1	1
\$120,000 - \$130,000	1	-
\$130,000 - \$140,000	1	-
\$140,000 - \$150,000	1	1

(iv) Other related party transactions

	2018	2017
	\$	\$
(a) Masterton Community Trust (MCT) - formerly Masterton Licensing Trust		
Shares in Trust House Ltd (number of shares) 10,026,629		
MCT Trustees Fees paid by Trust House Limited	15,480	15,720

When Masterton Licensing Trust was changed to Masterton Community Trust, to minimise costs, Masterton Community Trust was set up as non-trading parent. Its minimal expenses are paid by Trust House Limited.

(b) Trust House Foundation (THF)

(i) Trust House Foundation is an independent trust. Three of the Directors of Trust House Limited are also Trustees of Trust House Foundation.

(ii) Gaming machine proceeds are generated in the premises of Trust House Limited, Rimutaka Licensing Trust and other independent operators. Trust House Foundation has established regional net proceeds committees in Masterton, Rimutaka, Flaxmere and Porirua. Regional net proceeds committees consider grant applications from their area and make recommendations to the Trust House Foundation board. The Trust House Foundation board considers these recommendations and may or may not approve them.

	2018	2017
	\$	\$

30 DISCONTINUED OPERATIONS

In March 2017, as a result of a strategic review, the group classified its supermarket and stand-alone bottle stores segments as discontinued operations. The supermarket was sold in March 2017 and the two bottle stores were sold in June and July 2017. The trading results and effects on the group of the sale of these businesses is shown below.

(a) Financial performance and cash flow information

The financial performance and cash flow information presented are for the for the full years ended 31 March 2018 and 31 March 2017.

Independent Auditor's Report

To the readers of Masterton Community Trust and group's financial statements for the year ended 31 March 2018

The Auditor-General is the auditor of Masterton Community Trust and group (the Trust and group). The Auditor-General has appointed me, Debbie Perera, using the staff and resources of Audit New Zealand, to carry out the audit of the financial statements of the Trust and group on his behalf.

Opinion

We have audited the financial statements of the Trust and group on pages 2 to 43, that comprise the statement of financial position as at 31 March 2018, the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, and the notes to the financial statements that include accounting policies and other explanatory information.

In our opinion the financial statements of the Trust and group:

- present fairly, in all material respects:
 - its financial position as at 31 March 2018; and
 - its financial performance and cash flows for the year then ended; and
- comply with generally accepted accounting practice in New Zealand in accordance with New Zealand equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

Our audit was completed on 13 August 2018. This is the date at which our opinion is expressed.

The basis for our opinion is explained below. In addition, we outline the responsibilities of the Trustees and our responsibilities relating to the financial statements, and we explain our independence.

Basis for our opinion

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Responsibilities of the auditor section of our report.

We have fulfilled our responsibilities in accordance with the Auditor-General's Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Trustees for the financial statements

The Trustees are responsible on behalf of the Trust and group for preparing financial statements that are fairly presented and that comply with generally accepted accounting practice in New Zealand.

The Trustees are responsible for such internal control as it determines is necessary to enable it to prepare financial statements that are free from material misstatement, whether due to fraud or error.

In preparing financial statements, the Trustees are responsible, on behalf of the Trust and group for assessing the Trust and group's ability to continue as a going concern. The Trustees are also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Trustees intends to liquidate the Trust and group or to cease operations, or has no realistic alternative but to do so.

The Trustees' responsibilities arise from the Sale and Supply of Alcohol Act 2012.

Responsibilities of the auditor for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit carried out in accordance with the Auditor-General's Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures, and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of readers taken on the basis of these financial statements.

We did not evaluate the security and controls over the electronic publication of the financial statements.

As part of an audit in accordance with the Auditor-General's Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. Also:

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust and group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Trustees.
- We conclude on the appropriateness of the use of the going concern basis of accounting by the Trustees and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust and group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust and group to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Our responsibilities arise from the Public Audit Act 2001.

Independence

We are independent of the Trust and group in accordance with the independence requirements of the Auditor-General's Auditing Standards, which incorporate the independence requirements of the Professional and Ethical Standard 1 (revised): Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board.

In addition to the audit we have carried out the financial statements audits of Trust House Limited and Trust House Foundation and an agreed upon procedures engagement for Trust House Foundation. These engagements are compatible with those independence requirements. Other than the audit and these engagements, we have no relationship with or interests in the Trust and group.
