Notes to the consolidated financial statements

1 REPORTING ENTITY

These financial statements have been prepared in accordance with the Companies Act 1993 and the Constitution of Trust House Limited. The parent and Group financial statements of Trust House Limited as at and for the year ended 31 March 2022 comprise of Trust House Limited as the parent and Trust House Foundation as a controlled entity.

Trust House Limited is primarily involved in the hospitality industry running a number of bars, restaurants, a bottle store, two hotels a large rental housing portfolio and a small hydroelectric scheme. Trust House Foundation is a class IV gaming Foundation.

2 BASIS OF PREPARATION

(a) Basis of compliance

The financial statements of the Group comply with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS).

The financial statements were approved by the Board of Directors on 27th June 2025.

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP). For the purposes of complying with NZ GAAP the entity is a for-profit entity. The Company is a Tier 1 for-profit entity, as it has expenditure of more than \$30 million.

Trust House Limited is a company incorporated and domiciled in New Zealand, registered under the Companies Act 1993. The companies registered office is 4 Queen Street, Masterton 5840, New Zealand. Accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following:

- investment property is measured at fair value.
- land and buildings are measured at fair value.

The methods used to measure fair values are discussed further in note 4.

(c) Functional and presentation currency

These financial statements are presented in New Zealand dollars, which is the Company's and Group's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest dollar.

(d) Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to the Group's exposure to risks and uncertainties include:

- | | |
|---|----------------|
| - Financial instruments' risk management and policies | Note 20 |
| - Sensitivity analyses disclosures | Note 15 and 20 |

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Determining the lease term of contracts with renewal and termination options – Group as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

- Note 13 - Valuation of investment property
- Note 14 - Valuation of land and buildings
- Note 15 - Goodwill impairment
- Note 30 - Estimating the incremental borrowing rate for leases

(e) Changes in accounting policy and disclosures

All accounting policies adopted in these financial statements are consistent with those of the previous financial year.

3 SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements comprise the financial statements of Trust House Limited and its subsidiaries as at 31 March each year ('the Group')

The Group financial statements consolidate the financial statement of subsidiaries.

The consolidated financial statements are prepared by adding together like items of assets, liabilities, equity, revenue and expenses of entities in the Group on a line-by-line basis.

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Transactions eliminated on consolidation

Intra-group balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The Group has following financial assets which are all measured at amortised cost: cash and cash equivalents, trade and other receivables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group has following financial liabilities which are all measured at amortised cost: trade and other payables, loans and borrowings including bank overdrafts.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and term deposits with a duration of less than three months. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the Statement of Cash Flows.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Trade and other receivables

Trade and other receivables are stated at their amortised cost less expected credit losses.

Borrowings

Borrowings are classified as current unless there is an unconditional right to defer settlement for at least 12 months after the balance date.

Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred. Interest on qualifying assets is capitalised to the asset.

Trade and other payables

Trade and other payables are stated at amortised cost.

Property, plant and equipment

Recognition and measurement

Land and buildings are revalued with sufficient regularity such that the carrying value is not materially different to fair value, but at least every three years. The fair value is determined by an independent registered valuer by reference to their highest and best use. Additions between revaluations are recorded at cost.

A revaluation surplus is recorded in OCI and credited to the asset revaluation surplus in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in profit or loss, the increase is recognised in profit and loss. A revaluation deficit is recognised in the statement of profit or loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation reserve.

Furniture, plant and equipment, hydro assets, motor vehicles and gaming machines are initially recorded at cost, and depreciated.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Depreciation

Depreciation is calculated on a straight-line basis on all plant, property and equipment and gaming machines (other than freehold land and items under construction, which are not depreciated), at a rate which will write off the cost (or valuation) of the assets to their estimated residual value over their useful lives.

The depreciation rates for property, plant and equipment are as follows:

Land & Buildings - structure	1.96%-4.35%
Land & Buildings - services and fit out	1.96%-33.33%
Furniture & Plant - general	5.26%-67%
Furniture & Plant - gaming machines and counters	25%-100%
Motor Vehicles	10.5%-20%
Hydro Assets - Electrical reticulation	6.67%
Hydro Assets - Computerised load control equipment	16.67%

When the components of an item of property, plant and equipment have different useful lives or provide benefits to the entity in different patterns, thus requiring different depreciation rates and methods, the cost of the item is allocated to its component and each component is accounted for separately.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets

Intangible assets comprise of software acquired by the Group and goodwill on acquired businesses. Intangible assets acquired by the Group which have finite lives, are measured at cost less accumulated amortisation and accumulated impairment losses. Software is amortised at a rate of 15-25% per year on a straight-line basis. Gaming machine software upgrades are amortised at 25% per year on a straight-line basis.

Goodwill represents the excess of the cost of an acquisition over the fair value of Trust House Limited's share of the identifiable assets, liabilities and contingent liabilities of the acquired business at the acquisition date.

Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Where goodwill is allocated to a leased property the goodwill is amortised over the remaining life of the lease. An impairment loss recognised for goodwill is not reversed in any subsequent period.

Investment property

Property is classified as investment property when the primary income stream from the asset is rental income.

Investment property is initially recorded at cost. After initial recognition it is measured at fair value at each balance date.

With the introduction of IFRS 13 Fair value measurement, the Group's policy is to value at fair value considering highest and best use on an individual property basis.

Any increase or decrease in fair value is recognised in the Statement of profit or loss. Investment property is not depreciated.

Impairment

The carrying amounts of the Group's assets are reviewed at each balance sheet date to determine whether there is any objective evidence of impairment.

An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses directly reduce the carrying amount of assets and are recognised in the Statement of profit or loss

Impairment of receivables

All individual receivables which are considered to be significant are evaluated on a case-by-case basis. For trade receivables which are not significant on an individual basis, collective impairment is assessed on a portfolio basis, based on numbers of days overdue, and taking into account the historical loss experience in portfolios with a similar amount of days overdue.

Leases

(i) Measurement Basis

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable.
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the group's incremental borrowing rate.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date.
- restoration costs.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT-equipment and phones.

(ii) Extension and termination options

Extension and termination options are included in a number of property and equipment leases across the group. These terms are used to maximise operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by Group and not by the respective Lessor.

Inventories

Inventories are valued at the lower of cost, on a weighted average basis, and net realisable value.

Employee entitlements

Provision is made in respect of the Group's liability for annual leave, long service leave, and retirement gratuities.

Annual leave and other entitlements that are expected to be settled within 12 months of the reporting date are measured at nominal values on an actual entitlement basis at a current rate of pay.

Entitlements that are payable beyond 12 months, such as long service leave and retirement gratuities, have been calculated on an actuarial basis on the present value of the expected future entitlements.

A provision for sick leave is recognised where employees have over the past two years taken more sick leave than their yearly allowance and still have accrued sick leave entitlements at year end. The provision is calculated as the number of excess sick leave days over the employees entitlement expected to be taken in the next 12 months times the employees' daily rate.

A provision is recognised for the amount expected to be paid under short-term cash bonus plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Revenue

Trust House Limited is primarily involved in the hospitality industry running a number of bars, restaurants, a bottle store, two hotels a large rental housing portfolio and a small hydroelectric scheme. Trust House Foundation is a class IV gaming Foundation.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

(1) Goods sold / sales

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods.

(2) Services

Trust House Limited acts as a management company for other Group entities. Revenue for management fees is recognised in accordance with the fees agreed in those contracts.

(3) Rental income

Rental income from investment property is recognised in the Statement of profit or loss as it becomes due.

(4) Gaming machine income

Revenue from gaming operations is measured at the fair value of the consideration received or receivable. Revenue is recognised when recovery of the consideration is probable.

(5) Government Grants

Government grants are initially recognised as deferred income at fair value if there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant. Grants that compensate the Group for expenses incurred are recognised in profit or loss on a systematic basis in the periods in which the expenses are recognised.

Investments

Investments comprise of a loan to Trust House Foundation. The loan is measured at amortised cost

Tax

Trust House Limited is exempt from income tax as the Charities Commission has granted it charitable status. Trust House Foundation is exempt from income tax as it is a Class IV gaming venue operator.

Goods and Services Tax

These accounts are prepared on a GST exclusive basis with the exception of trade and other receivables and trade and other payables, which are stated on a GST inclusive basis. Where GST is irrecoverable as an input tax, then it is recognised as part of the related asset or expense.

The amount of GST owing to or from the Inland Revenue Department at balance date, being the difference between output GST and input GST, is included in Trade and other receivables or Trade and other payables (as appropriate). The net GST paid or received from the IRD including the GST relating to investing and financial activities, is classified as an operating cash flow in the Cash Flow Statement.

Charitable donations

Charitable donations are recognised when approval is given.

Held for sale assets

Non-current assets are reclassified as current assets held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

Depreciation is not charged against property, plant and equipment classified as held for sale.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

New standards, amendments and interpretations not yet effective

There are no standards or amendments that have been issued but are not yet effective that are expected to have a significant impact on the Group.

4 DETERMINATION OF FAIR VALUES

A number of the Groups accounting policies and disclosures require the determination of fair values for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) Land and Buildings

The fair value of land and buildings is based on market values. The market value of land and buildings is the estimated amount for which they could be exchanged on the date of valuation, between a willing buyer and a willing seller in an arms-length transaction after proper marketing, wherein the parties had each acted knowledgeably, prudently and without compulsion.

(b) Investment Property

An external independent valuer, having appropriate recognised professional qualifications and recent experience in the location and category of assets being valued, values the Groups investment property portfolio every 12 months. The valuations are prepared by considering the individual highest and best use of the properties in the portfolio.

5 REVENUE

5 REVENUE (continued)

Performance obligations

The Group had the following performance obligations in relation to revenue earned over time:

Rental income: The Group hosts a mobile telephone mast and must continue to provide access to the site to receive rental.

Trust House Limited receives management fees from the Trust House Foundation. Trust House Limited must ensure that all services under the contract, primarily provision of administration, accounting, secretarial support and Class IV gaming expertise are provided to the standard required in the management contract.

There were no material contract assets or liabilities at balance date.

The parent and group has the following revenue recognised at a point in time:

Hospitality revenue is received from the supply of food, beverages and accommodation.

Venue payments relates to commission received from Trust House Foundation for managing their gaming activities at Trust House Limited venues.

Gaming income is received by the Group from outlets with gaming machine operations.

The performance obligation for the above income is satisfied at a point in time as payment is recognised at the time the goods or services are supplied. There are no variable consideration, rights of return, refunds of other related obligations.

Revenue from the Kourarau Dam is recognised at generation at the prevailing spot market price.

	<u>744,165</u>	<u>536,904</u>	<u>802,659</u>	<u>626,270</u>

Group and Parent	
2022	2021
\$	\$

Aging of trade receivables

The status of trade receivables at the reporting date is as follows:

Not past due	519,229	269,409
1-30 days	17,704	34,866
31-60 days	18,680	7,050
60 days+	<u>33,711</u>	<u>50,744</u>
	<u>589,324</u>	<u>362,069</u>

As of 31 March 2022, trade receivables of \$28,421 (2021: \$37,596) were past due and considered impaired and trade receivables of \$41,674 (2021: \$55,064) were past due but not considered impaired.

9 TRADE AND OTHER RECEIVABLES (continued)

Movements in the group provision for impairment of receivables are as follows:

	Group 2022 \$	Group 2021 \$	Parent 2022 \$	Parent 2021 \$
As at 1 April	37,596	48,660	37,596	48,660
Additional provisions made during the year	(9,175)	3,310	(9,175)	3,310
Receivables written off during the year	-	(14,374)	-	(14,374)
Balance at the end of the year	<u>28,421</u>	<u>37,596</u>	<u>28,421</u>	<u>37,596</u>

Amounts charged to the provision are generally written off when there is no expectation of recovering additional cash.

The individually impaired receivables relate mainly to customers that are in difficult economic circumstances.

10 INVENTORIES

	Group 2022 \$	Group 2021 \$	Parent 2022 \$	Parent 2021 \$
Raw materials and consumables	59,076	65,545	59,076	65,545
Goods available for sale	<u>394,442</u>	<u>364,980</u>	<u>394,442</u>	<u>364,980</u>
	<u>453,518</u>	<u>430,525</u>	<u>453,518</u>	<u>430,525</u>

Inventory comprises goods available for sale and food ingredients.

No inventories are pledged as security for liabilities (2021 \$nil). However, some inventories are subject to retention of title clauses.

11 OTHER INVESTMENTS

Properties sold during the year	-	(115,000)
Improvements	1,300,595	1,253,430
Change in fair value - recognised in Statement of profit or loss	<u>28,379,405</u>	<u>57,631,570</u>
	<u>169,881,324</u>	<u>139,845,000</u>

Residential investment property comprises 482 (2021: 482) rental houses in the lower North Island. The Group's investment properties are valued annually at fair market value effective 31st March 2022.

The house sold during the year was sold at market value to an existing tenant on compassionate grounds.

The valuation uses level 2 observable inputs in arriving at fair value. These include the ratio of rental income to selling prices of equivalent assets done both on a total portfolio basis and also on a regional basis reflecting different ratios achieved in different areas. Depreciated replacement cost is also used as a supporting method.

The Group has no restrictions on the realisability of its investment property. The group has no contractual obligations to purchase construct or develop investment property or for repair, maintenance or enhancements.

The valuation was performed by an independent valuer, J McKeefry BBS (VPM), Dip BS (Fin), MPINZ; Registered Valuer of Telfer Young, Wellington. Telfer Young are an experienced valuer with extensive market knowledge in the types of investment properties owned by the Group.

In arriving at the valuation the valuer has to make critical judgements of the likely yield a property of the type held by the Group would sell at on the retail market. This judgement is applied by geographic location and takes into account sales of similar housing and knowledge of the rental and sale markets in those locations.

13 INVESTMENT PROPERTY (continued)

Insurance

Rental properties are insured for full replacement value, with a deductible (excess) of \$5,000 per dwelling.

(b) Commercial property

One of the Groups commercial properties has been designated as an investment property.

	Group and Parent

14 PROPERTY, PLANT AND EQUIPMENT (continued)

Valuation - land and buildings

At fair value as determined from market-based evidence by an independent valuer.

The most recent valuation was performed by J McKeefry BBS (VPM), Dip BS (Fin), MPINZ; Registered Valuer of Telfer-Young Wellington and the valuation is effective as at 31 March 2021.

The valuations were primarily based on the rental capitalisation methodology, depreciated replacement cost is used as a support method.

The total fair value of land and buildings valued by J McKeefry Group and Parent as at 31 March 2021 was \$19,195,000. This figure relates to both parent and group. The valuation uses Level 2 observable inputs in arriving at fair value.

These include rental prices per square metre of equivalent assets and capitalisation rates of rental income on sales of equivalent assets.

Impairment

Impairment losses for the company of \$Nil were recognised in 2021/22 (2020/21 \$13,867).

Insurance

The Trust House Group and related entities are part of a group insurance collective run by the New Zealand Licensing Trust Association in order to obtain improved coverage and pricing.

The NZLTA collective scheme has insurance cover of \$65 million for fire and \$170 million for material damage and business interruption.

Deductibles for claims are as follows:

Non-natural disaster - \$5000 for each and every claim.

Natural disaster - 5% of site sum insured per site.

15 INTANGIBLE ASSETS (continued)

(i) Description of the cash generating units and other relevant information

Goodwill acquired through business combinations has been allocated to three cash generating units (CGU's) for impairment testing as follows:

Legends Sports Bar

Legends Sports Bar is a public bar with 18 gaming machines operating in Porirua. The fair value of consideration for the purchase was \$200,000.

Goodwill was recognised on the 8th June 2015 acquisition due to the profitability Legends Sports Bar (formerly The Ledge) provides to the Group.

The carrying value of Goodwill has been impaired this financial year. In the prior year the recoverable amount was determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management which covers a five-year period. The growth rate of cash generation was assumed to be 2.5% per annum for the first 5 years and 2% per annum thereafter. The discount rate applied to cash flow projections is 6.0%.

Post Office Hotel

The Post Office Hotel is a Hotel with public bar and 14 gaming machines operating in Pahiatua. The fair value of consideration for the purchase was \$1,760,000.

Goodwill was recognised on the 20th Feb 2017 acquisition due to the profitability The Post Office Hotel provides to the Group.

The carrying value of Goodwill has been impaired this financial year. In the prior year the recoverable amount was determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management which covers a five-year period. The growth rate of cash generation was assumed to be 2.5% per annum for the first 5 years and 2% per annum thereafter. The discount rate applied to cash flow projections is 6.0%.

The Jackson Street Bar

The Jackson Street Bar is a public bar with 18 gaming machines operating in Masterton. The fair value of consideration for the purchase was \$1,119,787.

Goodwill was recognised on the 31st March 2017 acquisition due to the profitability The Jackson Street Bar provides to the Group.

The carrying value of Goodwill has been impaired this financial year. In the prior year the recoverable amount was determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management which covers a five-year period. The growth rate of cash generation was assumed to be 2.5% per annum for the first 5 years and 2% per annum thereafter. The discount rate applied to cash flow projections is 6.0%.

(ii) Carrying amount of goodwill allocated to each group of cash generating units

	Group and Parent	
	2022	2021
	\$	\$
The Ledge	-	79,364
Post Office Hotel	-	395,000
Jackson Street Bar	-	175,000
Total Goodwill	-	649,364

(iii) Key assumptions used in value in use calculations for cash generating units

The calculation of value in use for all CGU's is most sensitive to the following assumptions: gross margins, discount rates and growth rates used.

Gross margins are based on the average achieved in the last 12 months.

15 INTANGIBLE ASSETS (continued)

For the purposes of impairment testing a terminal growth rate has been used for all segments based on long-term industry averages.

(iv) Sensitivity to changes in assumptions

With regard to the assessment of the value in use for all CGU's, the company believes that no reasonably possible change in any of the above key assumptions would cause the carrying values of the units to materially exceed its recoverable amount.

The ANZ overdrafts are secured with registered first mortgages over a specified subset of land and buildings with a carrying amount of \$7,472,270 (2021: \$7,100,000). The ANZ also has a general charge over Trust House Limited's assets. The BNZ loans are secured by first charge mortgages over the remaining residential housing portfolio that is not secured by ANZ. A secondary security is also held over the rental income stream from the housing portfolio.

Number of shares on issue at 31 March 2022 10,637,000 (2021: 10,637,000). All issued shares are fully paid up and have no par value.

The large increase in capital in 2021-23 was largely as a result of the strong residential housing market. The revaluation of the residential housing portfolio at 31 March 2022 led to an increase in in capital and reserves of \$28,379,405. This revaluation is part of the non-operating income on the Statement of profit or loss.

20 FINANCIAL INSTRUMENTS

Exposure to credit interest rate and liquidity risk arises in the normal course of the Group's business.

Market Risk

Market risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks include three types of risk, interest rate risk, currency risk and other price risk.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a finance instalment or customer contract leading to a financial loss

Management has a process in place under which each new customer seeking credit with the Group is individually analysed for credit worthiness and assigned a purchase limit before credit is offered.

The Group does not require collateral in respect of trade and other receivables, except in relation to rental properties where bonds are required and lodged with the tenancy tribunal.

The Group's exposure to credit risk is mainly influenced by its customer base, as such it is concentrated to the default risk of its industry. No single customer balance would be considered material.

Investments are allowed only in call or short-term deposits with specified counterparties.

Credit quality of financial assets

Cash and cash equivalents are held with the ANZ which currently has a Standard and Poor's credit rating of AA. Trade and other receivables are all with counterparties without credit ratings with no history of default with Trust House Limited in the past.

Liquidity risk

Liquidity risk represents the Group's ability to meet its contractual obligations. The Group evaluates its liquidity requirements on an ongoing basis. In general, the Group generates sufficient cash flows from its operating activities to meet its obligations arising from its financial liabilities and has credit lines in place to cover potential shortfalls.

	Group 2022 \$	Group 2021 \$	Parent 2022 \$	Parent 2021 \$
Overdrafts and credit lines in place	2,000,000	2,000,000	1,500,000	1,500,000
Term facilities undrawn	3,000,000	3,000,000	3,000,000	3,000,000

Interest rate risk

The Group regularly reviews the balance between its fixed rate and floating rate borrowings. The Group has flexibility within its borrowing facilities to move between fixed and floating rates as required.

Other market price risk

The Group is not exposed any other substantial market price risk arising from financial instruments.

Quantitative disclosures

Credit risk

The carrying amount of financial assets represents the Group's maximum credit exposure.

20 FINANCIAL INSTRUMENTS (continued)

(a) Liquidity risk

The following table sets out the contractual cash flows for all financial liabilities, except for lease liabilities in Note 30.

Group 2022	12 months or less \$	1-2 years \$	2-5years \$	More than 5 years \$	Contractual cash flows \$	Carrying Amount \$

24 RELATED PARTY TRANSACTIONS

(i) Parent and ultimate controlling party

The immediate parent and ultimate controlling party of Trust House Limited is the Masterton Community Trust.

(ii) Transactions with key management personnel

Several of the Directors of Trust House Limited and Trustees of Masterton Community Trust own or run businesses in their own right. All transactions are entered into in the normal course of business and on arm's length.

During the year Directors and senior management, as part of a normal customer relationship, were involved in minor transactions with Trust House Limited (such as purchase of meals or liquor). Directors and senior management are entitled to a 10% discount on non-discounted goods. These buying privileges are available to all employees.

Mena Antonio, a Director of Trust House Limited, is the owner of The Diaspora Way which provides networking forum services to Trust House Limited. During the year Trust House Limited and Group paid The Diaspora Way \$5,000 (2021: \$Nil). The amount outstanding at year end was \$Nil (2021: \$Nil). Mena is also a Trustee of Leaving the Ladder Down Charitable Trust. During the year Trust House Limited made a charitable donation to the Trust of \$10,000 (2021: \$6,000).

Lucy Griffiths, a Director of Trust House Limited, is the spouse of a major shareholder in Technology Solutions which provides technology services and hardware to Trust House Limited. Technology Solutions has been the preferred supplier of information technology hardware and services to the Trust House Group for at least 20 years, pre-dating Lucy Griffiths election to Masterton Community Trust and appointment to the the Board of Trust House Limited. During the year Trust House Limited paid Technology Solutions \$276,107 (2021: \$165,892). The amount outstanding at year end was \$74,264 (2021: \$34,240). Trust House Group paid \$305,649 (2021: \$172,811) during the year and the amount outstanding at year end was \$99,127 (2021: \$35,570)

Toni Kennerley, a Director of Trust House Limited, is a major shareholder of Planalytics NZ Limited which provides strategic housing and policy-related services to Trust House Limited. During the year Trust House Limited and Group paid Planalytics NZ Limited \$13,225 (2021: \$2,500). The amount outstanding at year end was \$Nil (2021: \$2,875).

Cindy Grant, a senior manager of Trust House Limited, and her spouse jointly own Power Related Services Limited (PRSL) which provides electrical services and storage to Trust House Group. During the year Trust House Limited, Parent and Group, paid PRSL \$300 (2021: \$950). The amount outstanding at year end was \$Nil (2021: \$Nil).

(iii) Key management and personnel compensation

	2022 \$	2021 \$
Salaries and other short-term benefits	1,324,326	996,608
Post employment benefits	<u>29,296</u>	<u>17,239</u>
	<u>1,353,622</u>	<u>1,013,847</u>

Key management personnel compensation comprises that of the Directors, Trustees, Chief Executive and other senior managers. Two additions to the senior management team were made in 2021/22.

Employee Remuneration

The following table shows the number of employees whose total remuneration (including benefits) exceeds \$100,000 per annum.

MCT Trustees Fees paid by Trust House Limited	22,320	21,556

When Masterton Licensing Trust was changed to Masterton Community Trust, to minimise costs, Masterton Community Trust was set up as non-trading parent. Its minimal expenses are paid by Trust House Limited.

(b) Trust House Foundation (THF)

(i) Trust House Foundation is an independent trust. Three of the Directors of Trust House Limited are also Trustees of Trust House Foundation.

(ii) Gaming machine proceeds are generated in the premises of Trust House Limited, Rimutaka Licensing Trust and other independent operators. Trust House Foundation has established regional net proceeds committees in Masterton, Rimutaka, Flaxmere and Porirua. Regional net proceeds committees consider grant applications from their area and make recommendations to the Trust House Foundation board. The Trust House Foundation board considers these recommendations and may or may not approve them.

27 GROUP ENTITIES

Subsidiaries

Trust House Foundation is a controlled entity.

The Group has applied IFRS 10 Consolidated Financial Statements in preparing these financial accounts.

28 CAPITAL MANAGEMENT

The Groups capital includes share capital, reserves and retained earnings.

The Groups policy is to maintain a capital base so as to maintain creditor and community confidence and to sustain future development of the business.

The Group is not subject to any externally imposed capital requirements.

There have been no material changes in the Groups' management of capital during the period.

29 CHARITABLE DISTRIBUTIONS

	<u>4,478,015</u>	<u>3,041,589</u>

The Group total includes community donations paid through Trust House Foundation - refer note 24(b)

As at 31 March 2022, charitable distributions of \$930,159 (2020/21 \$665,743) had been approved by Trust House Foundation but not yet paid. These amounts are recognised as liabilities in the statement of financial position under Charitable donations allocated.

30 LEASES

The group leases premises, equipment such as photocopiers and televisions, and vehicles as part of its normal trading activities.

The group also has a land right of use asset that is classified as an investment property.

On adoption of NZ IFRS 16 Leases the group utilised the following practical expedients available under the standard
a) applied a single discount rate to a portfolio of leases with similar terms and similar class of underlying asset
b) excluded initial direct costs from the measurement of the right of use assets at the date of initial application

Trust House Foundation (a controlled entity) paid Class IV gaming venue payments which are a lease by nature. The payments are variable dependent on gaming income. In these circumstances IFRS 16 permits payments to be classified as ordinary operating expenses and no right of use asset to be created.

	Group		Parent	
	2022 \$	2021 \$	2022 \$	2021 \$

31 SUBSEQUENT EVENTS

Due to significant delays finalizing the audit of the 2020 and 2021 accounts the audits of the 2022, 2023 and 2024 accounts have been materially delayed. This passage of time has identified a number of subsequent significant adjusting or non-adjusting events that have occurred between 31 March 2022 and date the financial statements are authorized for issue. These events are:

Legal Dispute in May 2022 the company resolved a dispute in relation to a sale of land. The sale completed in July 2022.

Valuation of Investment property independent property valuations have been conducted as at 31 March 2023 and 31 March 2024. These valuations assess changes of value of investment property as an decrease in value by \$19 million for the 2023 financial year and a decrease in value of \$2 million for the 2024 financial year.

Sale of surplus investment properties in 2024 the company agreed a strategy for it's residential investment property asset. This strategy includes the sale of surplus properties to assist the funding of new housing stock. In the period to date of authorization of the 2022 accounts the company has disposed of property and received (or will receive on contracts that have yet to settle) proceeds of \$11.6m.

Repayment of debt proceeds from the sale of surplus property have been applied to debt reduction. As at date of authorization Group debt was \$9 million.

Sale of Legends Sports Bar in January 2025 the company disposed of the Legends Sports Bar for \$1.5m less costs of disposal. 90% of the purchase price is on deferred settlement with that amount due in January 2026.

31 SUBSEQUENT EVENTS (continued)

Healthy School Lunches Programme in 2024 the Government announced changes to the Healthy School Lunches Programme. These changes have a material impact on the income earned from this activity.

Except for the above matters, there have been no events subsequent to the reporting date requiring adjustment to or disclosure in the consolidated financial statements.

32 COVID-19 IMPACTS

On the 17th August 2021 the New Zealand Government, in response to the omicron variant outbreak, put the country on alert level 4. On 31 August the alert level in the regions in where the Group trades was reduced to level 3.

Alert level 3 & 4 required the public bars, bottle stores, hotel, and gaming operations of the group to cease trading. The residential housing services stayed open as an essential service.

The alert levels where the Group trades were reduced to level 2 on 8th September, allowing all our businesses to reopen but with capacity restrictions and mask mandates.

The Group elected to enforce the vaccine pass for all customers.

The Group applied for and received a government wages subsidies, resurgence support payments and other subsidies totalling \$437,186 during the year.

Independent Auditor's Report

To the readers of Trust House Limited and group's financial statements for the year ended 31 March 2022

The Auditor-General is the auditor of Trust House Limited (the company) and its subsidiary (together referred as the "group"). The Auditor-General has appointed me, Brent Kennerley, using the staff and resources of Grant Thornton New Zealand Audit Limited, to carry out the audit of the financial statements of the company and group on his behalf.

Opinion

We have audited the financial statements of the company and group on pages 2 to 42, that comprise the consolidated statement of financial position as at 31 March 2022, the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and statement of cash flows for the year ended on that date, and the notes to the financial statements that include accounting policies and other explanatory information.

In our opinion the financial statements of the company and group:

- present fairly, in all material respects:
 - its financial position as at 31 March 2022; and
 - its financial performance and cash flows for the year then ended; and
- comply with generally accepted accounting practice in New Zealand in accordance with New Zealand Equivalents to International Financial Reporting Standards.

Our audit was completed on 27 June 2025. This is the date at which our opinion is expressed.

The basis for our opinion is explained below, and we draw your attention to the other matter below. In addition, we outline the responsibilities of the Board of Directors and our responsibilities relating to the financial statements, and we explain our independence.

Delay in completion of the audit

The audit of the company and group's financial statements for the year ended 31 March 2022 was delayed due to the late completion of the audit for the prior reporting period, which was completed in late 2024. This delay impacted our ability to commence and complete the 2022 audit within the expected timeframe. Consequently, the audit for the year ended 31 March 2022 was not completed by the statutory reporting deadline.

Basis for our opinion

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the *Responsibilities of the auditor for the audit of the financial statements* section of our report.

We have fulfilled our responsibilities in accordance with the Auditor-General's Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors are responsible on behalf of the company and group for preparing financial statements that are fairly presented and comply with generally accepted accounting practice in New Zealand.

The Board of Directors are responsible for such internal control as they determine is necessary to enable them to prepare financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible on behalf of the company and group for assessing the company and group's ability to continue as a going concern. The Board of Directors are also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Board of Directors resolve to amalgamate or liquidate the company and group, or to cease operations, or have no realistic alternative but to do so.

The Board of Directors' responsibilities arise from the the Charities Act 2005.

Responsibilities of the auditor for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit carried out in accordance with the Auditor-General's Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of readers taken on the basis of these financial statements.

We did not evaluate the security and controls over the electronic publication of the financial statements.

As part of an audit in accordance with the Auditor-General's Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. Also:

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company and group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- We conclude on the appropriateness of the use of the going concern basis of accounting by the Board of Directors and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company and group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company and group to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We obtain sufficient appropriate audit evidence regarding the financial statements of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Our responsibilities arise from the Public Audit Act 2001.

Independence

We are independent of the company and group in accordance with the independence requirements of the Auditor-General's Auditing Standards, which incorporate the independence requirements of *Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand) (PES 1)* issued by the New Zealand Auditing and Assurance Standards Board.

Other than the audit, we have no relationship with, or interests in, the company and group.

Brent Kennerley

Grant Thornton New Zealand Audit Limited

On behalf of the Auditor-General

Wellington, New Zealand
